¶ Cum priuilegio ad imprimendum solum.

A PROGNOSTICATION, made for the yere of our Lorde God M. CCCCC. L. III. by Anthony Askham Physition.

Of diſſeaſes and ſickeneſſes this yere.

THe face of heauen conſydered with all other groundes parteynynge to the ſame, ye ſhal vnderſtand that this yere we are very lyke to haue many cold ſickeneſſes both of drye humoures and waterſhe, as dropſies, goutes quotidians, quartans, lepres, morphewes, rewmes, fallynge ſickenes and palſeys, and many other kindes that may come of the myſt, ſtomake and brayne, becauſe of the error of digeſtion, and alſo to be deadely in olde gowty men, and to continewe longe in ponge age, and women to ſuffre muche peyne in theyr ſydes, ſtomakes, and flankes.

☞ The diſpoſitions of that part of Wynter, frome neweyeres day, to the .x. of March.

This tyme shalbe much rayne with snowe, and specially in the moneth of January, and also Febzuarye shalbe raynye with snowe and wynde, and darke dayes, Marche more indifferent, but yet rayny and ful of moysture, and lytle frost.

Of Spryng tyme.

¶ From the.x. of Marche to the.xii of June shalbe sprynge tyme, but yet a parte of wynter here in Englande. Apryll shalbe showrye with thonder, and in May much thōder.

¶ Of Sommer.

¶ From the.xii. of June to the.xiii of September shalbe a fayre moysty wether.

Of Autumpe.

¶ From the.xiiii. of September to the.xii. of December shalbe indifferente wether, with dyuers cloudye dayes, and rayny, in October some colde hayly showzes: and so about

the

the full mooone in Nouember and December colde and rayny, and no great snowe tyll Newyeres day.

January.

¶ From Newyeres day to twelfe day cloudy ouercasten and muche rayne myxed with slete and snowe vppon mountaynes, and spectallye nere to Twelfe daye, and the morowe after shall be the laste quarter at .iiii. at after none, and. lvi. mynutes vpon sonday, rayne hayle and snowe, and wynde, and. iii. or. iiii. dayes together shalbe full of moysture, and rayny slete, then nere the newe moone fayre.

¶ The newe moone the. xiiii. day a lytle before. ix. of the clocke at morne vpon saterday wyndy with shoures and rayny, and within one day after more rayne myxed with snowe in dyuers places, and styll

to within. iii. dayes of the quarter.

¶ The fyrst quarter. the. xxi. daye a lytle before. iii. of the clocke at after noone vpon saterday, great wind with colde shoures, myxed with sleete and hayle. iii. or. iiii. dayes together, then moze fayze to here the full mone.

¶ The ful mone the. xxix. day half houre before. vi. of the clock at after noone vpon sonday fayze, but with in. ii. dayes rayny, and colde myxed with snowe in diuers places and. ii or. iii. dayes in the begynnynge of Febzuary fayze and frosty.

Febzuary.

The last quarter the. vi. daye at one of the clocke, and. lvi. mynutes before none vpon Monday, cloudy, and rayny with dyuers darke daies together, and windy, and about the x. day rayny with snowe.
